SUMMARY

A self-taught front-end developer passionate about creating responsive, user-friendly websites. Experienced in building dynamic web applications, with a focus on delivering quality and efficient solutions. Eager to apply strong communication and problem-solving abilities to a junior developer role.

SKILLS

| HTML | CSS | Sass | JavaScript | React | Next.js | Shadcn/ui | Tailwind Css | Bootstrap | GIT |

| Problem-Solving | Adaptability | Communication |

PROJECTS

EcoBazzar

🔗 https://eco-bazzar-steel.vercel.app/

This is a handcrafted responsive, e-commerce website showcasing various collections of clothing for men and women. It's built using **React** for the front-end, **Vite** for fast and lean development, and **SASS** for styling. It's designed to be user-friendly, with clear categories, product descriptions, and a clean, attractive layout.

Blog Horizon

🔗 https://blog-horizon.vercel.app/

Blog Horizon is a versatile blogging platform covering a wide range of topics including lifestyle, education, health... The website is built using **Next.js**, **Tailwindcss**, and **shadcn/ui** for a responsive, pixel-perfect, and modern design. It leverages **Sanity CMS** for the backend and **Framer Motion** for animations.

CarHub

🔗 https://my-carhub-app.vercel.app/

CarHub is a fully responsive website, created with **Next.js**, **Tailwind CSS**, and **Headless UI**, showcases a car rental service. It features a car catalogue with variety of cars from different makers, customer testimonials, team introductions, and a contact form. The cars data is provided by "**Cars API**".

EcoBanner

🔗 https://eco-banner.vercel.app/

This is a full-stack e-commerce banners website utilizing **Next.js**, **Tailwind CSS**, **Strapi CMS** for backend, **Clerk** for user authentication, **Cloudinary** for image storage, and **Stripe** for payment processing. It features captivating banners, customizable products, and a user-friendly interface for shopping and checkout.
